The Right Honourable Stephen Harper, PC, MP
Prime Minister of Canada
Office of the Prime Minister
80 Wellington Street
Ottawa, K1A 0A2

Dear Prime Minister,

This representative group of Australian MPs from liberal and conservative parties recognises the proven benefits of the Medically Supervised Injecting Room in Sydney.

This facility has been operating for five years and has saved lives and transformed the response to drug users from health and social services. Our research has also shown the benefits of the injecting centre, not only in saving lives but also providing a pathway to recovery. We are willing to share this with you if requested.

We offer our strong support for the continuation of the Vancouver Injecting Facility, noting that the community, families and drug users require our active, practical, compassionate support.

Yours sincerely,

The Members of the Australian Parliamentary Group for Drug Law Reform
